Introduction

The Coronavirus pandemic has had a dramatic impact to our lives and clearly impacted our strategic outlook.

Given the above the ateb Group Board decided to develop an interim strategic plan that straddles the last year of our current plan (Year 3) and first year of what would have been our new plan (Financial Year (FY) 2021/22).

Clearly the operating environment is very dynamic and therefore this plan must be flexible enough to respond to changing circumstances. Customers, partners and the ateb team (ateb, Mill Bay Homes (MBH), West Wales Care & Repair (WWC&R)) have contributed to this plan that balances assurance of service to our customers and partners with the need to prepare, plan and innovate for the future.

The interim plan will continue to ensure that we are "creating better living solutions" by focusing on our 3 strategic aims:

Aim 1:

Increase
Corporate
Strength

AIM 1

Increase Corporate Strength

"Without the right purpose, financial resources, culture and governance, we will not have the capability to deliver the right services and growth."

Aim 2:

Improve
Service
Delivery

AIM 2

Improve Service Delivery

"We must always deliver our customers the outcomes they want, efficiently with great customer experience, meaning we will need the best people, assets and systems."

Aim 3:

New
Business
Growth

AIM 3

New Business Growth

"We have a responsibility to meet the needs of new people and communities within the scope of our purpose, we can achieve this through service and/or market growth, collaboration and diversification."

Whereas the Coronavirus pandemic has created difficulties and hardships throughout our communities, it has also demonstrated opportunities such as togetherness / compassion, flexible working and removal of homelessness. This plan will seek to provide a positive platform to aid recovery and take advantage of the opportunities.

Strategic

Strategic Aims

How we approach our strategic planning

ateb has developed its strategic hierarchy that is used to help shape the best long term outcomes for the people and communities we serve. The hierarchy consists of our purpose supported by 3 aims and 12 priorities, it is important that each priority is functioning correctly to maximise our aims and in turn deliver our long term purpose.

How we agreed this plan

We used the following process with our customers, teams, and partners to develop this plan:

1. Reassessed the challenges we are facing by engaging and listening to our customers, teams and partners.
2. Reviewed the strategic priorities in our current plan.
3. Retained those priorities that remained relevant to our aims and reset their outcomes and timelines to fall within the 2 year interim plan.
4. Assessed the new/changed demands on our existing services, our business resources and new service needs, including recovery of services from lockdown.
5. Envisaged the likely operating environment over the next 5 years to help shape early responses to potential new norms.
6. Considered where innovation will have the biggest impact in achieving our aims.
7. Assessed the likely cost of delivering the emerging 2 year plan and updated our financial projections to ensure the plan is deliverable.

The key priority areas we established

Increase Corporate Strength

- Assure
- DNA development
- Offices & agile working
- Integrated Cloud technology
- Financial planning

Improve Service Delivery

- Engage customers
- Team wellbeing & structure
- Environment & supply chain
- Processes & reporting

New Business Growth

- More Homes
- Broaden Areas
- Tenure & Care development
- Partnership development

Challenges

My interest in life comes from setting myself huge, apparently unachievable challenges and trying to rise above them.

Challenge

Challenges

We have established the following issues that may impact our strategic aims:

 **Welfare support post Covid-19**
- dealing with the welfare and social impacts of the 2020 pandemic on our customers and our teams and partners.

 **Recession economy post Covid-19** - will impact our customers and communities and potentially our ability to build more homes and access funding etc.

 **Brexit** – uncertainty in the financial and housing markets generally making our operating environment very changeable

 **New Regulation** – there will be a new approach to regulation from the Welsh Government within the life of this plan

 **Independent Affordable housing review**
– changes emerging from the review undertaken in 2018

 **Cloud technology**
– adoption and security across our operations

 **Mill Bay Homes**
– uncertainty with the private housing market leading to reduce gift aid to the parent

 **Carbon reduction**
– the cost and technology needed to reduce carbon within our existing homes

 **Uncertain funding**
– streams for WWC&R

 **Changing colleague expectations** – of work/life balance. Office facilities and remote working design

 **Housing Horizons** – challenges of doubling output over the next 20 years; aligning housing with health and making a good home a right for all

 **Universal Credit** – the continuing migration of customers from Housing benefit to universal credit

 **Construction supply chain** – availability puts a greater emphasis on Modern Methods of Construction and new procurement techniques

 **Foundational Economy principles**
– Learning, training, employing and enterprise support for local communities

Risks

Risks

The ateb Group Board have articulated their risk appetite as follows:

ateb risk appetite is...

"The level of risk that we are prepared to accept in pursuit of our objectives, before action is deemed necessary to reduce the risk. It represents a balance between the potential benefits of innovation and the threats, that change inevitably brings."

Risk area	Does our strategic plan ...	ateb risk appetite
Compliance	Knowingly breaching rules or regulations?	We have no appetite for knowingly breaking any rules or regulations whilst going about our business.
Financial	Allow us to fulfil our financial obligations to our customers and partners?	We will accept financial risk dependant on the rewards of taking the decision being commensurate with our purpose/aims, that there are clear controls/plans in place to manage/mitigate ongoing financial risk and the decision does not breach the safety margins agreed by Board in respect to financial decision making nor have an adverse effect to the agreed business plan and budget.
Reputational	Protect the ateb brand?	We will accept an impact to our reputation on the basis that the impact is time limit, managed, marginal or generally commensurate to the rewards of taking the decision.
Performance	Ensure that service delivery is not adversely affected?	We will accept an impact to our performance on the basis that the impact is time limit, managed, marginal or generally commensurate to the rewards of taking the decision and that no other agreed or planned proposal will be unknowingly affected as a con-sequence.
